A Deserved Promotion

Henry Epstine has been transferred from the Carson and Colorado road to the main line and will have headquarters at Sacramento. This promotion of Mr. Epstine is a deserved one. He has been running on the C. & C. as conductor since the memory of man unnumbered not to the contrary. He was one of the most popular conductors on that line. His railroad experience began at the bottom of the ladder he having started his career as a peanut butcher on the V. & T.

Assembly Address

General Assembly will take place in the Gymnasium this afternoon at 3:30. It will be addressed by Prof. Thurtell and Dr. Steckle. Their theme will be "The Outlook." Dean Thurtell will discuss it from an academic point of view and Dr. Steckle will speak of it from the standpoint of college athletics. A general invitation is extended to the public to be present.

A Region that is full of Rich Resources

Humboldt county has an approximate area of 14,000 square miles. Its principal water courses are the Humboldt, Little Humboldt, Quinn and Kings Rivers, with numerous smaller streams tributary to these.

The chief mountain ranges are the Humboldt, Sonoma, Pine Forest, Quinn River, Cottonwood, Osgood, Jackson, Paradise and Trinity ranges, all having a general north and south direction and all bounding in minerals of various kinds and equally varied degrees of richness.

In many of the canyons in the mountains rich placer deposits have been found, and even the deserts have been found rich in borax, salt and sulphur.

Numerous hot springs are found affording relief to the sufferer from rheumatism and gout. Within the knowledge of the writer, several cases of rheumatism have been cured by bathing at Kyla's Hot Springs, about 25 miles south of Mill City.

The irrigation splendid crops of hay and grain are grown in almost every portion of the county, affording winter feed for the numerous herds of cattle and sheep which range in the mountains and foothills during the summer months. Apples, peaches, pears, grapes, apricots and prunes, as well as the ordinary kitchen garden vegetables, grow luxuriantly.

Football News

Interest in football on the hill is becoming intense. Last evening three elevens were out at practice. Captain Riordan is here and is co-operating with Trainer Steckle in the effort to make the varsity team champion of the coast this season.

Wreck on the N-C-O

Yesterday ten cars of cattle were brought in from the wrecked train on the N-C-O, near Snowstorm canyon. There were eight cars of cattle wrecked. It is not known yet how many animals were killed and injured.

Oakland Cattleman

President J. F. Reynolds and Buyer Henderson of the Oakland Meat Company are in town. Their company owned the cattle in the wrecked train on the narrow gauge.

THE COMING RELAY RACE

Garden City and Relay Wheelmen to Try for the Trophy

(By King Ryan.)

The Reno Wheelmen team are at present training under difficulties for their race with Garden City Wheelmen next Sunday. On account of the recent changing conditions of the weather the majority of the team are suffering from colds and attacks of tonsillitis, which effects make training rather a hardship. Nevertheless the team will probably be in fair shape by the time the race is called, though they may not be at their best, they will certainly cause the Garden City bunch some trouble.

By their easy defeat of the City City and others at Santa Rosa on last Tuesday the San Jose team are feeling a little joyful, according to reports and expect to turn the trick that will win the championship on their home grounds. With the exception of two or three new ones their team will be the same that competed here recently. The many clubs of San Francisco and vicinity have called club runs to San Jose to witness the race and it is expected that a very large crowd will be in attendance, all probably rooting for San Jose. "Rooting" is a part of all amateur sports, and has done much to bring many a team to victory. It is hoped the local enthusiasts that are looking for a vacation or pleasure trip will take advantage of the low rate for the round trip, \$12.60, and will come along and yell for the boys, and they will do their best to bring home the trophy and uphold the reputation of the Sagebrush athletes.

Mrs. LaForge of Reno Weds Verdi Hostetter

Monday evening a quiet wedding was solemnized at the Golden Eagle hotel. The contracting parties were Mrs. Irene LaForge, daughter of Mr. and Mrs. W. J. Gill, of this city, and Verdi Hostetter, of Santa Maria, Cal. The ceremony was performed by Rev. Stewart of the Congregational church. Only the family of the bride were present.

In a few days Mr. and Mrs. Hostetter will take up their residence in Santa Maria. Mrs. LaForge is very well known in Nevada and her many friends will wish her every happiness.

THE FAMED LOST MINE

It is Believed that the Hobart Bonanza has been found

Walter S. Hobart, the young California capitalist, and Judge Bradley, a well-known capitalist of San Francisco, spent yesterday in Washoe valley. They say it was a pleasure trip. Mr. Hobart, it will be remembered, owns a large tract of timberland west of Carson upon which was claimed to have been found some time ago a ledge of gold bearing ore of fabulous richness.

The discoverer claimed a royalty reaching into figures that Mr. Hobart didn't feel inclined to pay. Instead of coming to the terms of the discoverer he put several good prospectors into the field and they have labored for months. What they found remains for the present veiled in mystery, but Mr. Hobart doesn't seem worried over the outlook and Mr. Bradley, his legal advisor, is as gay as the flowers of springtime.

The indications are that a lead has been picked up by the detectives and, if not the original discovery, some mineral formation has been found that promises well.

Mr. Hobart was seen at the Riverside last evening by a Journal representative. He declined to say much about either mines or polo ponies, but he said that his trip had been a pleasant and profitable one.

The inference is that Mr. Hobart believes that the long, lost mine has been discovered.

Advertising a Rich Tributary Region

One of the nearest advertising booklets that has come to the exchange table of The Journal for a long time is a write-up of Plumas county issued from the press of the National-Bulletin. It is an exhaustive treatise on the resources of that region. The illustrations are very handsome.

The National-Bulletin is to be commended on its progressiveness and the proprietors of that paper will win The Journal's gratitude if they will mail this office several more copies to be used in furthering the Quincy paper's laudable efforts to bring that section to the notice of the public.

TELEGRAPHIC NEWS BREVITIES

News of the World, Bofled Down for Quick Perusal by The Journal's Busy Readers

Senator Bard of Los Angeles lies at the point of death from pneumonia.

The Tesla briquette factory, near Stockton, is on fire, and already \$250,000 damage has been done.

Lieutenant John R. Morris, United States Navy, was found dead in his stateroom on the United States ship Olympia by a fellow officer yesterday. He had committed suicide.

Twenty-five villages have been swept away and 6000 persons have been rendered homeless by floods due to the overflowing of rivers in the southern part of the presidency of Bengal. Relief camps for the sufferers have been started.

A Texas company has secured a million and a quarter acres of longleaf pine forestry land in that State, which it is estimated contains six and a quarter billion feet of lumber. This company is now taking measures to protect the second growth.

Reports from the fire-stricken district on the Lewis river continue to grow worse. The charred bodies of thirty-eight people have already been found, and it is believed more will follow. Many settlers and an unknown number of campers from outside points are missing.

British troops have occupied the Malay principality of Kalatan at the request of the Sultan. Kalatan pays a tribute to Siam, so this is an aggression. There is great excitement at Kalatan, for it is feared it means the extension of the British protectorate over the whole Malay peninsula.

Letter from the Bay City Boys

John J. Rafferty, of the Reno Wheelmen's Club, has received a communication from Frank T. Marisch of the Bay City Wheelmen thanking him for Reno papers describing the race. Mr. Marisch said: "Our whole experience at Reno, especially the ending of the relay, seemed like a dream to us all. But, never mind, I think we can do it next time we meet."

"Florentine, who made such an unsuccessful ride against Jap Hart, showed up well at Santa Rosa. He shook all the other riders for half a mile."

"Our team will see you all in San Jose next Sunday. The club is going to run down in a body."

A Plea for Timber Conservation

The Carson Appeal suggests that the forestry commission should make a visit to some of the forests in the State. It is a being cleaned out in this part of the world. With the immense amount of timber that is being cut at the Hobart mills, not an attempt at a provision is being made to replenish what they are depleting. In the same time in this neighborhood, several hundred acres of second growth timber has been absolutely ruined. Not a vestige remains where the contractors cleaned the ground, and some of the timber cut was no bigger than a man's arm, making only a stick of fire wood to the tree.

When the legislature meets proper laws should be framed regulating the cutting of timber and a forest inspection provided for. It will pay the State a hundred fold for the money invested, and be the means of protecting the farmers' water sheds. Half of the trouble with shortage of water is caused by the destruction of the timber, and the sooner the farmer helps himself by insisting on laws regulating the cutting of timber that much sooner will he put money in his jeans. It's tonight outrage the way timber has been cut in this section, and it will be even worse if no laws are made to regulate it.

HOPELESSLY ENTANGLED

IT IS impossible to defend a bad cause with good argumentation. This may be considered axiomatic. Therefore it is not surprising that the Stewart-Hawley press of the State is utterly unable to reason in a straight line, and avoid the most glaring self-contradictions.

The Journal has heretofore directed attention to the fact that in the first instance some of the Republican papers commended the Irrigation Law in high terms, claiming it as a Republican measure for the benefit of the Arid West, while a little later the same papers were declaring the law to be utterly worthless and laying all the blame upon Francis G. Newlands. A more bungling somersault could scarcely be imagined, for instead of landing gracefully on their feet, those who attempted to simply came down awkwardly on their heads. It was one of those egregious blunders in politics that cannot be explained anyway.

As long as it suited the purposes of these papers to claim that the measure was a good one they insisted that Newlands had nothing to do with it; but the moment political exigencies required them to shift their ground and claim that the law was worthless, presto! Newlands had all to do with it, and was responsible for its alleged defects—which defects, by the way, have not yet been pointed out, except it is claimed that Mr. Newlands might have got a large direct appropriation of money, which everybody ought to know was impossible.

Having thus become entangled in a web of its own weaving one would suppose that the Republican press would be only too glad to have the Irrigation Law forgotten during the remainder of the campaign, but it has to keep digging at Newlands, and so continues to blunder right along. For example the Carson News now says:

"The official call for the Tenth National Irrigation Congress says the irrigation law was 'secured by united action of the friends of National irrigation regardless of politics.'"

It is only in Nevada that Mr. Newlands is the whole thing."

In the light of the foregoing what becomes of the claim first made by the News that the Irrigation Law was a Republican measure? And what becomes of the News' second claim that the law is no good? And what becomes of the News' third claim that Newlands is the man whose blundering made the law no good?

The last clause in the excerpt from the News is a clumsy attempt to shift the issue. Nobody in Nevada has assumed Mr. Newlands to be "the whole thing." The claim is simply that he was an active, energetic and efficient factor in the work. The true statement of the proposition is that it is only in Nevada that Mr. Newlands' valuable services are denied, and even here the denial is confined to a little coterie of hidebound partisans. As soon as this campaign is over almost everybody will concede that the law is a good one, and that Representative Newlands had something to do with its enactment.

MOST COMPLETE FUSION EVER EFFECTED

THE FUSION of the Democratic and Silver parties in Washoe county last Monday was probably more thorough and complete than was ever effected between two political organizations in the history of party alliances in the United States. That the most complete unity of sentiment upon National, as well as local, issues existed between the members of both conventions was manifested by the immediate consolidation of the Platform Committees appointed by the two assemblies, and the absolute harmony in the discussion and adoption of the joint platform which was published in full in yesterday's Journal. The same harmonious spirit prevailed in the apportionment of the different officers and there was not a clash or the least contentious spirit exhibited in that or in any other part of the joint proceedings. The platform was adopted with enthusiastic cheers by each convention, which manifested the complete unity of sentiment between the two bodies and was a harbinger of the unity of action which will prevail in the campaign and at the polls on the day of election. The joint ticket nominated is admitted to be the strongest ever presented to the people of Washoe county. It is composed of representative men and there is room for no reasonable doubt that it will sweep the country by a larger majority than was ever recorded during

the period of its organization. Of the different candidates we will make mention in detail from time to time between this and the day of election.

AN IMPRACTICAL PROPOSITION

PRESIDENT ROOSEVELT continues to prance about the country advocating government control of trusts, and newspapers supporting him are clamoring for a constitutional amendment to accomplish such control. The Republicans have once proposed that method in Congress but it did not meet with favor. In the first place it is extremely doubtful if such a constitutional amendment could be passed. It is revolutionary in character, giving too great powers to the general government. If it may control one class of industry it may control all classes and a long step will have been taken towards socializing the government. It would, infringe the right of the States to control their own internal affairs and for that reason would be stoutly resisted by many of them. It would not be favorably received by those States that now derive a large revenue from those combinations. New Jersey, for instance, whose entire State expenses are paid by the charter fees and taxes of the trusts, would not be pleased with the idea of giving up that income.

There is one sensible, immediate and practical method of curbing the trusts, the method proposed by the Democrats and favored in the past by good Republicans—reducing or abolishing the tariff on goods controlled by the trusts so that foreign competition may take the place of domestic competition, which the trusts have destroyed. The Republican party is unwilling to take up the revision. It knows that it cannot touch one schedule without being compelled to take up others, and the whole tariff edifice would be in danger. So the party is crying for government control, which is impracticable, and probably impossible.

Twice Told Tales of State Happenings.

An ice plant is to be installed at Carson.

Trout are quoted at 40 cents a pound and scarce at that at Glenbrook.

The new 500-ton mill of the De Lamar company in Lincoln county is being rushed to completion.

The total assessed valuation placed on Elko property this year is \$6,750,000 or \$300,000 more than last year.

It is reported upon good authority that President Roosevelt will visit the coast this fall and will make three speeches in Nevada.

The Casserly group of mines, situated in the Yankee Blade district, has been purchased by Messrs. Oddie and Hubert, of Butler, Nevada.

Senator W. W. Williams sold, the first of the week, to the Western Meat Company, of San Francisco, 7000 weathered and 5000 lambs from his Elko county range.—Elko Free Press.

There will be an increased demand for good miners and laborers in this and surrounding localities within a few weeks at most, enough work for those who are here.—Tonopah Bonanza.

Ed. F. Freudenthal of Pioche has sold to Samuel Newhouse a one-half interest in two groups of claims situated in the Comet district, 22 miles west of Pioche. The consideration is not known.

The Cold Turkey Mining Company has been organized to operate a group of seven claims five miles from Delamar. Salt Lake parties are interested. The new company will thoroughly develop the property.

An explosion of powder in the small white house south of the Gould & Curry office caused an alarm of fire about 20 minutes to 2 this afternoon. The department turned out in short order. No damage was done.—Chronicle.

Wynn & Lasher are treating seven-

ty-five tons of ore every four hours at their mill. About sixty men are employed. The property consists of twenty-five claims; the nearest railroad point is Lovelock, but as two ranges must be passed supplies are obtained from Winnemucca, seventy miles distant.

The old camp of Como is coming to the front apparently. There are about forty men employed in the camp. The Boyle tunnel is now flowing about twenty inches of water. George Fryer and Chas. Sadistrom have their shaft down about 200 feet and have a four-foot ledge of fair grade milling ore at that depth.—Lyon County Times

Frank Golden is in Salt Lake City interviewing the smelter people and reduction work at that place. Frank was one of the largest ore producers under the leasing system in Tonopah, and will endeavor to make arrangements whereby the thousands of tons of rich ore now sacked and piled up at the camp may be converted into cash.

The California and Nevada Mining Company is pushing forward work on their properties in the Arabia district, consisting of the Victor and Hoodlum mines. J. B. Keeler is in charge of the work. Shipments have been made of ore recently opened on the Victor, and as soon as returns are received so as to determine the method to be used a reduction plant will be erected.

It is reported that work by the Tonopah Extension Mining Company is being pushed ahead rapidly. They have developed a good body of ore that will be valuable as a fluxing ore for the Tonopah district. The ore assays well in gold, silver, copper and iron. The work being done on a four-foot ledge on this property shows some very high values in gold and silver. The ledge is well defined in a porphyry formation and carries a good gouge. Many new strikes have been made in the camp the last week.

Misstatement Corrected

A correspondent at Ely writes The Journal that the statement of the White Pine News that no Democratic primaries were held in White Pine county is not true. Primaries were held at Ely, Hamilton, Lane City and White River, which elected full delegations to the County Convention. The only appointments made by the Democratic County Central Committee were one delegate from Osceola, two at Pilot Knob and Copper Flat. The party is as well organized in White Pine as in any county in the State. The Democratic and Silver parties are in perfect harmony and will carry the county by a handsome majority.

FALL OPENING

At the Phelan Millinery and Dressmaking Parlors, 21 Second street, on September 13, 15 and 16, an elegant display of patterns, tailor made and street hats at reasonable prices. Latest modes in dressmaking. Hand painting a specialty. S12w

Library Progressing

Trustee Norcross informs The Journal that at the next meeting of the new board of Free Library Trustees the site for the Carnegie library building will probably be accepted and the \$15,000 gift will then be immediately available. The library will be located at the south approach to the Virginia street bridge, opposite the Riverside hotel.

ME HANTS' LUNCH.

The Owl Cafe will serve a merchants' lunch every day from 11:30 to 2 o'clock for 25 cents. The lunch will be delicate and tempting. French dinner will be served every Sunday, including Claret wine. Remember the Owl's Virginia street Cafe. 191fm

Extensive Work

The Pyramid company is preparing to do some very extensive work, as may be seen by an advertisement elsewhere in this issue. A three-compartment shaft is next in order and the ore body will be most thoroughly explored.

DON'T FAIL TO TRY THIS.

Whenever an honest trial is given to Electric Bitters for any trouble it is recommended for a permanent cure will surely be effected. It never fails to tone the stomach, regulate the kidneys and bowels, stimulate the liver, invigorate the nerves and purify the blood. It's a wonderful tonic for run-down systems. Electric Bitters positively cures kidney and liver troubles, stomach disorders, nervousness, sleeplessness, rheumatism, neuralgia, and expels malaria. Satisfaction guaranteed by S. J. Hodgkinson. NO SUBSTITUTE OFFERED.

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy when the best remedy for diarrhoea is asked for, and do so because they know it is the one remedy that can always be depended upon, even in the most severe and dangerous cases. It is for sale by S. J. Hodgkinson.

SAVES A WOMAN'S LIFE.

To have given up would have meant death for Mrs. Lois Cragg, of Dorchester, Mass. For years she had endured untold misery from a severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed till I used Dr. King's New Discovery for consumption and was completely cured." Sufferers from coughs, colds and throat and lung trouble need this grand remedy, for it never disappoints. Cure is guaranteed by S. J. Hodgkinson. Price 50c and \$1.00. Trial bottles free.

THE PROPER TREATMENT FOR A SPRAINED ANKLE.

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by S. J. Hodgkinson.

ELLEFORD COMPANY

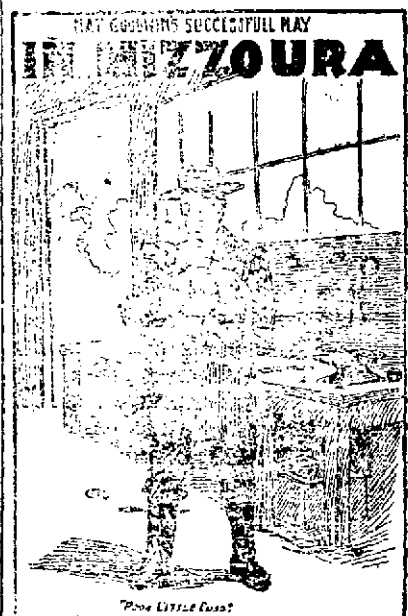

Another Clever Rendition is Given by this Company

"Blue Jeans," by the Elleford troupe, drew a packed house at McKisick's last evening.

The piece was put on and acted well. The saw mill act was marred by the saw refusing to act at the critical moment, otherwise the performance was all that could be asked.

The company is a strong one and deserves the large patronage they are receiving.

Tonight they will produce "In Mizouri." This is the piece that Nat Goodwin made his first New York hit in. It is the best play that August

Thomas ever wrote and is one of the acknowledged comedies on the stage today. There is the old-time blacksmith shop reproduced, for which everything is carried by the company. There is not one dull moment throughout the entire evening. The latest New York hit "Dancing the Twostep With Lollo," will be rendered by Miss Myrtle Selwyn. "Cinderella" will be the attraction at the Saturday matinee.

NEWS OF THE STATE

Twice Told Tales of Happenings in This State

A flock of storks are hovering over the Comstock.

Clay Peters has resigned as Justice of the Peace at Tonopah.

The Piute Indians of Western Nevada have formed a trust and are reaping the benefits therefrom.

Last year they worked independent of each other and sold pinenuts at \$2.50 a sack. This year they have combined and it takes another dollar to do business with them.

J. J. Kennedy of Tonopah and J. S. Parker of Reno yesterday passed an examination before the Supreme Court and were admitted to practice in the courts of Nevada.

The board of equalization held a meeting yesterday afternoon, but only a few minor matters came up. They were taken under advisement and the board took a recess until Friday afternoon at 4 o'clock.

Some Gardnerville residents who poked out the glad hand to one Chas. Thornton, are now looking for somebody to boost them in the sitting down part of their pants. He got the money; they got experience.

Chief Engineer Hood, of the S. P. says the telegraph office and station will be established for Churchill on the new line about a mile north of the Well, according to the wishes of the Churchill county people.—Dispatch.

The Silver Peak correspondent of the Walker Lake Bulletin says that the volcanic eruption in that vicinity will not be attended by results as disastrous as that of Mount Pelee for the reason that there are not enough inhabitants in that region to fill a fair-sized barn.

A welcome bit of news to the stockholders of the Silver Hill was the announcement of a dividend. While the amount is only 5 cents, it is a good showing from the mine. The mine has been under the most prudent management and prospects for further dividends like the one declared today are not lacking.—Chronicle.

AETNA

MINERAL WATER

(Bottled at Aetna Springs, Napa Co. Cal.)

There are so many kinds of mineral waters on the market, and all claiming to possess healthful properties, that it is difficult for a person to make a choice.

When we consider, however, that AETNA has stood in the front rank for years, has been a favorite in households as well as public resorts, and has been recommended by eminent physicians, who use it themselves and prescribe it for patients, there should be no question in the matter of selection.
